IN BOSTON MARKETS.

Butter Is Firm and Moderately Active—Eggs Firmer.

Boston, Feb. 20.—Butter is firm and moderately active in the local market. Fresh creamery stock moves readily enough and at full prices when fancy, but goods that show the effects of the weather sell slowly. Storage butter is in steady demand, and as holdings are constantly decreasing, prices are easily maintained. Fine box butter continues in good request, and prints are fairly active. Stocks of cheese are small, the demand fairly good, and prices very firm. Eggs are a trifle firmer under small arrivals and a good demand.

WAGE ADVANCE FOR 21,000.

The Frick Coke Company Announces Increase.

Connellsville, Pa., Feb. 20.—An advance in wages that will directly affect 21,000 men and mean the paying out annually in the Connellsville region of nearly \$1,500,000 more than hitherto, has been announced by the H. C. Frick Coke company. The new scale becomes effective March 1. It provides for an increase of 12 1/2 per cent. for mining, 10 per cent. for drawing coke and 15 cents a day to drivers, rope riders, cagers and track layers, with a proportionate raise for other classes of labor. The advance announced by the Frick company will, it is said, be followed by every other coke company in the Connellsville, Lower Connellsville and Greensburg regions, and over 60,000 workmen will be benefited. The mine coke worker is now making more than the bookkeepers and high-class clerks.

FACTS FROM FRANCE.

Some Paris cabs now bear the inscription, "English spoken."

It is estimated that not less than \$20,000,000 is paid out in tips yearly in Paris.

In all the great and little countries of Europe the number of births has never been so high as at present. France alone makes a deplorable exception.

It is proposed to substitute solitary confinement during six years for the death penalty in France. The death sentence has not been carried out for some time.

Fifteen women in Paris have gone into training to be professional "cabbies." Most of the candidates are taking lessons at the headquarters of the Animals' Protection society. The lessons are on the anatomy of the horse and the best methods of treating that animal.

Dice.
Dice are said by some to have had their origin in occult sources, but more reasonably they are ascribed to Pythagoras of Greece, B. C. 1244. Those examined at Thebes are identical with those used today, and the games played with them are the simplest and most widely known games of chance in the world.

On oath and honor we hereby most positively declare that our Double Loaf Malt Bread, made of Pillsbury's flour and by Union bakers, is the best in the State. If you doubt our word try just one loaf and you will be convinced of its superiority to any other. You will notice also that it is white and light and yet firm.

Why is it that Mother's Bread was always good? Because it was made by hand and kneaded, and that is why ours is good. It is properly kneaded. Try one loaf, if no more.
